

Sustainability Statement

O.H. Industri's environmental policy:

- Protect the environment by minimizing emissions and the consumption of resources
- Ensure that our working environment has a focus on health and safety
- To ensure that our production process is carried out with minimal impact on the environment whilst continually working to improve through ongoing investments in clean technology

Quality management system DS EN ISO 9001: 2015

O.H. Industri is ISO 9001 certified, which guarantees a consistent quality of each and every product. A quality determined on the basis of O.H. Industri's own requirements, DNV requirements and customer requirements.

Sustainability

O.H. Industri carry out waste segregation for all waste produced in our factories. All offcuts and other forms of timber and wood waste from production is automatically fed back to our heating plant to heat the factories.

O.H. Industri products are manufactured from timber sourced from sustainable well-managed forests. O.H. Industri are certified according to the FSC®'s global labelling scheme for sustainable wood and paper. We use certified wood from sustainable forestry.

Our material suppliers provides environmental information and declarations, establishing a number of standards to ensure that due diligence has been given to both the environment, the type of labour used, and compliance to EUTR (European Timber Regulation) and REACH (Registration, Evaluation, Authorization and Restriction of Chemicals).

Environmental Credentials – OH products scope:

| Scope | 100% FSC | FSC MIX 70% | FSC CW | PEFC | OLB |
|-------------------------------|-------------|-------------|--------|------|-----|

| Solid timber - Panels | | | | | |
| Panels Mahogany | | ✓ | | | |
| Panels Oak | | ✓ | | | |
| Standard : ✓ | Optional: ✓ | | | | |

What is:

EUTR:

European Timber regulation is prohibiting the place of illegally harvested timber into the European market.

FSC 100%:

Means that the wood in the product is completely FSC certified from well managed forests

FSC mix 70%:

Means that the wood in the product is from FSC certified forests, recycled material or controlled wood

FSC CW:

The FSC controlled wood standard minimizes the risk of using wood products from unacceptable sources

PEFC:

Chain of custody certification. Forrest management for tracking certified materials from the forest to the final product.

OLB:

Chain of custody certification. Forrest management for tracking certified materials from the forest to the final product.
